

See page 42 for detailed chart of the 550 Torch and corresponding attachments.

CONCOA Steel Master Kit

Steel Master™ is an economical all-purpose alternative for most welding and cutting needs. These quality matched components can weld metals up to 1/4" (6.4mm) thick, and cut steel up to 1 1/2" (38.1 mm) thick. These capacities can be increased, using larger optional tips, to weld up to 1" (25.4 mm) and cut up to 4" (101.6 mm).
